BOW ISLAND

If You Want HARNESS Here is your opportunity.

In order to reduce our stock, we will
sell at 10 per cent over factory cost,
with nothing added for freight etc.

You will save 20 to 25 per cent.
We are prepared to show you the
wholesale prices

**Buy NOW there is no sign
of lower prices in the future**
The BOW ISLAND SADDLERY
W. J. OLIVER, Proprietor.

The Bow Island CASH Meat Market

will OPEN on
Friday 12th September
With a good line of Best Quality Meats
at the most REASONABLE PRICES equal
to the present Prices of the Cattle
Markets.

The Business will be run on the
Principles of Justice to all.
Big Business with small profits
is my motto.

C.E. JOHNSON PROPRIETOR

The Miracles of IRRIGATION in Southern Alberta.

The Story of a journey through some IRRIGATED Districts.

Starting from Basano we went

North and East until the Red Deer

river was seen in the distance.

Around Coates and Rosemary,

wherever the water had been applied,

splendid crops were the reward.

We halted at one farm where everything

indicated recent settlement. The

owner came along with a broad smile

and to our inquiry "How are the

crops?" he waved his hand, "Look at them!"

"Over 100 acres of wheat,

thick, heavy even crop, just turning

to a golden shade, and will be ready

for cutting next week. Thirty acres of

flax claimed our attention, a splendid

crop, also on the turn. "That is some

crop!" we remarked, "what will it

bring you?" "At the present price

of flax seed it will be worth \$1.80."

"The wheat will go better at 40

ounces to the acre." A nice patch of

potatoes and garden vegetables were

pointed out with pardonable pride by

the owner.

He informed us that for three years

he had been dried out the other side

of the Red Deer River. He got the

irrigated land this spring, broke it up,

worked like a beaver to get his seed

into this ground. "But oh, boys it was

worth it. She's some crop." He then

told us that it was one hell of a time

around the river, but his troubles

were over.

The smile on his wife's face as the

site of the new home to be built was

pointed out, made one smile in return.

"We'll soon have trees and a lovely

garden," was her remark.

From there we turned south and

east toward Millieon, on the Empress

line. The work of extending the

ditches, to keep ahead of land buyers,

is some problem for the irrigation

department. The season is all too

short for the amount of work to be done.

Building a railway is a recession

compared with constructing a vast irrigation system.

Just think for a moment what it

means to bring water in sufficient

quantity to supply every quarter section of irrigable land.

Settlement has just begun in the

Millieon district, and thousands of

acres will be under the plow by the

fall of next year. From there to

Brooks we cut west and south, passing

many fine crops of wheat, flax,

alfalfa, gardens a sight to behold,

with sweet corn waxing six and eight

feet high. The first crops of alfalfa

have been cut, and several second

cuts. We wanted to linger by these

fields of alfalfa, but the referee's

signal must be obeyed.

On things we particularly

noticed was the difference of the

atmosphere in the irrigated district as

compared with districts where the

water will be sure to get him in.

We will soon have a big Farmer's

majority in Parliament, and we will

cut out the Grafter and the Profiteer.

And the Farmers will then get the

full and just price for all their Pro-

duce. And it is up to the Govern-

ment to pay every cent for all the

Irrigation in Southern Alberta, be-

cause the Farmers have been the

main source of the Wealth that has

been produced in Canada.

Remember the Farmer is the

"King of the Earth."

WHITE ROSE GASOLINE.

You buy mileage as well as gallons; every drop is power. With "White Rose" you get more miles, more smiles, more economical gasoline on this account.

This store is at your service with the best of everything.

Warning Against Hoarding Sugar

Toronto.—With reference to an Ottawa dispatch of August 23, stating that the whole sale grocers, in their convention at Ottawa, had predicted that sugar would rise to 20 cents a pound before the present shortage would be relieved, Hugh Blair, president of the Wholesale Grocers' Association, made the statement:

"There must be some mistake about this, as no discussion took place at the convention as to what the price of sugar was likely to be. It is, however, stated in the convention that importers in the United States have bought fifty cars of granulated sugar, held in Halifax, at the regular Canadian price, but it had been resold at other specifications in the United States and is offered at \$13.80 at Halifax to the Dominion government, and I believe a few cars were bought at this price. The convention generally felt that to buy sugar at such a figure might have the effect of creating an advance on all sugar, which would be most unfortunate."

"It was also felt that selling this sugar would have the appearance of profiteering, and that if we do resort, however, to the wholesale trade in Montreal to the wholesale trade at \$10.40 and \$10.50, with the usual discount off, and is resold to the retail trade, these figures will be the final result. The shortage in sugar has been caused entirely through the lack of shipping facilities, owing to the marine strike, which prevented refresher from getting raw sugar, and it is thought factors will be compelled to normal conditions without further delay, we should get supplies of refined sugar to meet our requirements within the next 30 or 60 days."

"I would like to warn the public against sugar being beyond their pressing requirements, because hoarding sugar is certainly going to increase the price to the consumers, who will be in the besides dependent on the public for their share of what sugar is to be had. Every wholesale and retail grocer should furnish their customers with the smallest quantity of sugar they can get along with until sugar becomes more plentiful."

Abdicated Ruler Sues for Estate.

Berlin.—Former Duke Charles Edward of Coburg-Gotha has filed a suit against the republic of Gothia, who will be in the besides dependent on the public for their share of what sugar is to be had. Every wholesale and retail grocer should furnish their customers with the smallest quantity of sugar they can get along with until sugar becomes more plentiful."

Three Men Burn to Death.

Boise, Idaho.—Three men were burned to death in a house fire at Gorgard, north of Laramie Port. They were part of a crew of 200 which turned out to save the village of Gorgard. Heavy winds swept the flames through the forest and cut off the men from the crew. The fire is the largest of the season in southern Idaho, having spread over more than 40,000 acres since it started.

Wheat Board to Meet at Toronto.

Vancouver.—A public meeting of the Canadian Wheat Board will be held in the Board's Trade rooms, Royal Bank building, Toronto, Ont., 9.30 a.m., Monday, September 8, when the Board will hear expressions of opinion from the public on the scheme for the handling of the 1919 wheat crop.

Lloyd George Calls Halt To Expenditures

Denies Report

That Great Britain Is Seeking Rail-way Concession Through Estonia.

Copenhagen.—The English press bureau officially denies the report recently printed by the National Tidende that Great Britain is seeking a railway concession through Estonia to Russia, or that negotiations are in progress between the two countries.

The National Tidende declared that negotiations were proceeding for the lease of Dage and Orel, in the Baltic Sea, to England for the construction of a canal across the same. The paper also stated that England was to have a railway connection through Estonia to reach the Russian market.

Withdraw From One Big Union.

Vancouver.—The Vancouver postal workers have withdrawn from the Vancouver and District Postal Workers' (Big Union). The vote of a referendum that has been in progress for the past two weeks was counted here. The result was given as 314 in favor of withdrawing and 90 against.

There are approximately 400 members of the Postal Workers' Association in Vancouver.

California Transportation Is Paralyzed

Workers Disregard Orders of Their Union Leaders and Quit Work.

Stop Work On Warships

Step May Involve Loss of Some 25 Million Pounds

London.—All private shipbuilding yards throughout the country, numbering about twenty, are affected by the general strike, so that all work has stopped on warships except those to be launched.

The Admiralty yards at Chatham, Devonport and Portsmouth will stop, however, as they are entirely occupied with the building of 2,700 ships which are about to be turned over to the owners from whom they were requisitioned for war service.

Among the warships being built at private yards are cruisers, destroyers and torpedo boats.

It is expected that the Royal

Yards & Ships' president of the Brotherhood of Locomotive Engineers, for the men of that craft to resume their posts.

The men had the intention of returning to their posts.

Shipbuilding will be liberally compensated in cases where contracts are broken, but although several million pounds sterling may be involved, it may prove more economical than casting on the back of the taxpayer.

The question of an order to Adm. Admiralty as saying that one sound reason for stopping work on warships is that the step will clear the yards for commercial work.

There is a great demand for new ships, and the step will probably absorb the men liberated by the stoppage of work on naval vessels.

According to the Glasgow Daily Record, 140 warships valued at £125,000,000 have been stopped.

Shipbuilding will be liberally compensated in cases where contracts are broken, but although several million pounds sterling may be involved, it may prove more economical than casting on the back of the taxpayer.

GOOD CHEER

Mr. John Hubka is busy harvesting his feed oats, and is storing them away for winter use. Nels Albertson is helping him.

Tommy Spy has left the employment of W. J. Little at present he is working for Mr. Levine, digging coal, but he intends to go back if there is any moisture, to help with the plowing also to put his land into shape for the spring.

Threshing will soon be over with in this district, the threshing crews don't make a very long stay at any farm, we hope that next year will be a better one for everybody.

Mrs. Adair of Medicine Hat, mother of Mr. Alfred Adair, is moving to the Good Cheer district where she will reside during the winter months in Mr. Adair's house formerly owned by Mr. Andy Lindquist.

Pete Negeski and W. J. Little motored to Winnifred and Whith Sunday morning calling on Mr. Graig, Mr. Collins and Mr. Gosselin report some very fine crops in that part of the country.

Mr. Walter Marsden, and Mr. Peterson, are busy cutting wheat for seed on the Frank Sutton farm, formerly worked by Hambleton Bros.

Miss. Dean, teacher of the Good Cheer, has returned from Indiana U.S.A. where she has been visiting for the last two months.

Pete Negeski, Mr. and Mrs. W. J. Little, daughter Mary and little son William, motored to Bow Island Saturday evening.

Once more Mrs. J. P. Peairs is in our midst at present she is visiting Mrs. Lindquist, and Mrs. Bob Salisbury, we hope she doesn't forget to call on the rest of her acquaintances.

Mrs. George York spent Monday afternoon visiting Mrs. W. G. Little.

Mr. and Mrs. Art Lindquist, daughter Ethel, Pete Negeski, Tommy Spy and Mr. Levine spent a pleasant afternoon and evening with Mr. and Mrs. Little last Sunday.

Mr. O. A. Lindquist is busy plowing his land with two triple disc plows Renzle Evans is helping him.

Mr. and Mrs. W. J. Little, daughter Mary and little son spent a very pleasant evening with Mr. and Mrs. Art Lindquist last week, it takes Art and Nora to entertain their friends.

We thank all our friends for any Correspondence that they can kindly send in. All Correspondence should be signed, but the name will not be used for publication.

Bow Island North

From our own Correspondent

Mr. and Mrs. Danielson and family of Bow Island Lutheran manse, were visitors to the Peterson family of Grand View Farm Sunday 24th.

Mr. Robt. Arthurs accompanied by Mrs. Arthurs and their young son Colin came down from their cattle ranch on the Bow River, visiting Mrs. B. Thompson, last Sunday Mr. Arthurs expects to return early this coming week after attending to business in this district

Slim Marsden whilst cutting hay had an exciting experience for a few minutes when one horse of the team he was driving in endeavouring to shake the flies off from his head, jerked loose his bridle with the result of suddenly bolting, with Slim, mowr and all, luckily Slim disengaged the gear which shut off the mower, and when the animal was beyond all control, the neekyoke came off, and a record of fast moving was the result, happily the mower was unhurt, barring a broken doubletree, and the ten was recaptured late that night, none the worse for their flight.

Art Lindquist has completed a large area of plowing on his extensive wheat farm, and hopes to finish the entire tract in a few days.

Mr. Jake Jacobson has nearly completed his plowing contract for Bert Mayberry on the Lemberg homestead, he has been running two shifts a day on a disc gang plow, about the only implement practicable in this dry land.

We had a storm on Wednesday night, of a few minutes duration, about a thousandth part of an inch fell, the first in a month, some wet climate eh?

Mr. Bert Mayberry has nearly finished his header route for this season we expect to see him threshing in a week or two's time we hope so anyway.

\$10.00 REWARD.
STOLEN OR STRAYED.

From 9 W. 4th. Picture, a steel Grey Mare 2 years old, part maned, never slip shoes on front feet; halter on; weight about 1200 lbs. \$10.00 reward for safe delivery of this mare or \$5.00 for information leading to recovery.

BOW ISLAND

From our own Correspondent

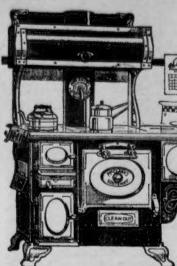

Miss. Robertson who has been visiting her uncle Robt. H. Robertson for the past month left for London on Wednesday last going by the Lake route to Sarnia.

Mr. Bapke from Windy Ridge was a Bow Island visitor last Wednesday.

Mr. Brown from Melville Sask. is the new manager for the Citizens Lumber Co.

Mr. Coolidge and son were in town on business this week.

Rev. W. P. Spomer and wife of Webb Sask. as visitors to Bow Island

McClary's Kootenay

SURELY it is every woman's right—a range that she can depend on—a range that is a real joy to work with—a range easy to keep clean—a range that "keeps the oven hot" with a small fire, the cooking surface being a bright wall of nickelized steel it never needs blacklead. The oven wall of nickelized steel is easily cleaned. The duplex grates clean down the fire with a single sweep of the lever. See this famous range.

Wives and Mothers Need Not Have Sore Backaches

Constantly on their feet attending to the care of a large and exacting family, women often break down with nervous exhaustion.

In stores, theatres, and on farm are weak, ailing women, dragged down with torturing backaches, a common sight.

Such suffering is natural, but it's dangerous, because due to disease.

The dizziness, insomnia and other symptoms of kidney complaint can't ever be relieved until the assistance of Dr. Hamilton's Pills, which go direct to the seat of the trouble.

To give vitality and power to the kidneys, to lend tone to the bladder and liver, to free the body from excesses, there is no remedy so successful as Dr. Hamilton's Pills. For all kidney irregularities their merit is well known!

For the relief of colds, soothings and healing effects Dr. Hamilton's Pills are recommended for girls and women of all ages. 25¢ per box at all drugstores or as a substitute for Dr. Hamilton's Pills of Mandrake and Buttercup.

Filling His Own Shoes

BY HENRY C. ROWLAND

Copyrighted. Printed by special arrangement with Thos. Allen, Toronto.

(Continued.)

"You don't understand yet," Miss Challand said. "Nowadays, if a young fellow wants to get ahead in a big business, he's got to be very bold and hard and work his step by step; that is unless he's got a pull with the concern and a place all made for him. Even then, the chances are that all he has to do is to draw his pen across a paper and know how the business does the work for him, but that isn't real business, and the Walkers' Shoe Company don't run theirs that way. They give the best job to the man that's best fitted for the job, just as you are." Why do you know that the son of the president of our company?" Ruggles was slightly irritated at the mention of the president, although he had been born from the speakings of the grand master of his order—worked in the factory, just as I did? He went to work seven o'clock in the morning with his dinner pail, just like the rest of us. Say, when I saw Yale—the boy, I mean—old man wanted to get a fine out of him."

"What—a what?" Miss Challand interrupted.

"He, our president, wanted to see if the boy was a piker."

"A what?"

"He wanted to see if he was the real thing," Ruggles explained. "I wanted to see if he was getting too big for his britches, and he was good and strong for the concern that his father was the head, and not proud, and the like of that. The boy was playing on the team—the tall, tall team, I understand,—as far as your sent one of our best New York players, to New Haven for the Princeton game. It's a great big shoe with a door in the heel and the trade-mark on the side. Well, believe me, that wagon was the hit of the day. You know, down there the president had the cast full of roosters, and they roosted for Yale and the Walkers at the same time."

"What do you mean—they roosted?" asked Miss Challand, who was greatly carried away despite herself by Ruggles' enthusiasm. "They were the team!"

"Oh, no. They were—" Ruggles searched in his mind for the synonym of "cock."

"They were the Yale students; hockers, you might say. They invented a yell—"

"A yell?"

"Yes, a college cheer. In the United States all the different colleges have their yell. Myself, they called it 'Yale' all together, and before me, Miss Challand, it sounds fine when several thousand people all let loose at the same time. Young Dick Downing's bunch had a yell like this: 'Yale, Yale, Yale, yah-yah-yah.' And then there was a song about the shoe on the foot of the leg of the man that kicked the goal, and would you believe it Dick Downing—he was captured by the Yale football team! They did kick a goal from the field and saved the game, and they say the crowd went crazy. It was a great day for Yale—and for the Walkers Company. I heard the advertising manager say that it was worth thousands to us—"

Ruggles leaned forward and looked at Miss Challand with sparkling eyes. "That shows the sort of folks that are at the head of the business," said he.

Miss Challand listened as might one who tries to follow an interesting description in an unknown language. She was impressed by the fact that there was something by no means paltry behind all of this ardor; something true and real which raised Ruggles' enthusiasm for the method of trade to the level of madmen.

She was bound to admit that he seemed far superior to such tradespeople as she had ever come in contact with. The man was a real and personal pride in himself, and through the association invested him with some added grace. Miss Challand felt rather dazed.

"You see," Ruggles went on, "Dick Downing is the real thing—the real American. He'd be just the same if he worked in the garment factory with the stitching-room gang as he would at the training-table of the football team, or anywhere else; just the same nice fellow. The men he works with in the factory called him Dick, and I liked it. That's the way we are in America. It doesn't make any difference that his father's a millionaire and a big swell in the bank. Dick Downing and two or three others are the stars of his school, too. Why do they bring the cars into the store about three months ago, and you hadn't thought we were old friends the way they treated me? And here he'll probably be our next president."

"The president of the United States?" exclaimed Miss Challand, fat the reverential hush that Ruggles' tone's effect had mentioned this exalted office impressed her in spite of her bewilderment.

"The president of the Walkers' Shoe Company of America," said Ruggles. "And his sister, Ruth Downing, is just as fine as Dick. She's a wonder, Miss Challand. I'll show you her pictures, some day. While I was trying on her shoes—"

"Ting-ting-on—her—shoes?" gasped Miss Challand. "Do you try on your shoes?"

"Sure!" answered Ruggles. "That's my job."

"Lord, did you give her your pictures after you had tried on her shoes?"

"Oh, no. I eat them out of weekly papers and pinned 'em up around my room. She's a beauty, and just as nice as she is pretty. While we were talking, I had to leave the store, and I asked if I was still satisfied with my job and wanted to know why I didn't ask for something better."

"There am I to understand that your present—er—job, as you call it is not satisfactory?"

"That's right. I'm not satisfied with the store—fitting them shoes?"

"That's it," answered Ruggles stoutly. "But it's not going to be much longer. After what Ruth Downing said, put me in a better light."

"I think he's been here from the start of the grand master of his order—worked in the factory, just as I did? He went to work at seven o'clock in the morning with his dinner pail, just like the rest of us. Say, when I saw Yale—the boy, I mean—old man wanted to get a fine out of him."

"What—a what?" Miss Challand interrupted.

"He, our president, wanted to see if the boy was a piker."

"A what?"

"He wanted to see if he was the real thing," Ruggles explained. "I wanted to see if he was getting too big for his britches, and he was good and strong for the concern that his father was the head, and not proud, and the like of that. The boy was playing on the team—the tall, tall team, I understand,—as far as your sent one of our best New York players, to New Haven for the Princeton game. It's a great big shoe with a door in the heel and the trade-mark on the side. Well, believe me, that wagon was the hit of the day. You know, down there the president had the cast full of roosters, and they roosted for Yale and the Walkers at the same time."

"What do you mean—they roosted?" asked Miss Challand, who was greatly carried away despite herself by Ruggles' enthusiasm. "They were the team!"

"Oh, no. They were—" Ruggles searched in his mind for the synonym of "cock."

"They were the Yale students; hockers, you might say. They invented a yell—"

"A yell?"

"Yes, a college cheer. In the United States all the different colleges have their yell. Myself, they called it 'Yale' all together, and before me, Miss Challand, it sounds fine when several thousand people all let loose at the same time. Young Dick Downing's bunch had a yell like this: 'Yale, Yale, Yale, yah-yah-yah.'

And then there was a song about the shoe on the foot of the leg of the man that kicked the goal, and would you believe it Dick Downing—he was captured by the Yale football team!

They did kick a goal from the field and saved the game, and they say the crowd went crazy. It was a great day for Yale—and for the Walkers Company. I heard the advertising manager say that it was worth thousands to us—"

Ruggles leaned forward and looked at Miss Challand with sparkling eyes. "That shows the sort of folks that are at the head of the business," said he.

Miss Challand listened as might one who tries to follow an interesting description in an unknown language. She was impressed by the fact that there was something by no means paltry behind all of this ardor; something true and real which raised Ruggles' enthusiasm for the method of trade to the level of madmen.

She was bound to admit that he seemed far superior to such tradespeople as she had ever come in contact with. The man was a real and personal pride in himself, and through the association invested him with some added grace. Miss Challand felt rather dazed.

"What's the matter with my position?" Miss Challand asked him. "And what's the matter with me? I've always been a hard worker, and I've never been lazy, but I've got no social habits, and I always try to be polite and gentlemanly. There was never anything tough about me, Miss Challand," his voice was almost pleading, "—what's the matter with me?"

"Well, you see, I can't seem to do it. What's the disgrace in selling shoes? A fellow has to work his way up, and I'm doing it as fast as a man can. The company is sort of like an army, you've got to march up the ranks. Well, I'm not good, I might be general manager some day—or even president of the company"—Ruggles gave free rein to his imagination for a brief second—"but that's not being a business man, army, or anything else. The business is a big one and laid out on good sound lines. It isn't as if I was one of those people that took the money and ran. We sell for a fair price. People have to wear shoes, just like they have to eat and drink, and it seems to me that the company is doing a lot more money in it. If we're forbidden to work it would be because we feared their competition."

"The usual rate of pay for both sexes, I suppose, minimum should be enforced by legislation to remove the feeling of injustice that would be created if women were discriminated against in work they could do. It would be said that that would only drive us out of business, but the belief becomes a part of the tree, adding to its strength and fruitfulness. The birds are something foreign to the tree, but the birds and the tree and the sun are not. We are the best made shoes in the world, and we sell 'em for a fair price. People have to wear shoes, just like they have to eat and drink, and it seems to me that the company is doing a lot of good in the world, if you want to look at it that way. I wouldn't handle a poor article. I couldn't sell it, and I'm not selfish. I'm not, but I'm not selfish, and I wouldn't be about my goods, no matter what they paid me. If I've got anything to be ashamed of, I wish you'd tell me what it is."

Woman's Future In Industrialism

LESSON FOR SEPTEMBER 7

SUNDAY SCHOOL LESSON

PARABLES OF THE KINGDOM OF HEAVEN

Market For Horses Wanted

New Dominion Minister of Agriculture

Some of His Ideas

Calgary—Dr. F. S. Tolmie, new

Dominion minister of agriculture;

Hon. Arthur McHugh, minister of

the interior; Hon. J. A. Calder, min-

ister of immigration and coloniza-

tion, were the chief speakers at a

meeting of the Calgary

board of trade, Hon. Charles Stev-

art, premier of Alberta, was present

also.

One of the chief points pressed by

Dr. Tolmie in his address was that

more attention should be given to

mixed farming and the cattle in-

dustry. He emphasized the necessity

of paying more attention to the British

market and also that across the

border the Americans were

interested in improving breeds of

cattle, and announced that the fed-

eral department of agriculture was

preparing to give prizes at

the Royal Winter Fair.

Mr. Tolmie also related how the

market for highbred dairy cattle,

especially Holsteins from Canada,

was becoming constantly wider

across the line.

Dr. Tolmie referred to the impor-

tance of finding a market for light

horses in Alberta. There was a

market in Poland, where the horses

and cattle had been sold by the

British government to the Poles.

Dr. Tolmie said that the govern-

ment had been overzealous through

the western spirit. We must endeavor,

he said, to avoid a repetition of the

situation. He thought something

should be done to help us in the

western areas of Southern Alberta and

Saskatchewan that could be irrigat-

ed. Wherever that was feasible, it

must be done.

Referring to the big war debt of

Alberta, he said that governments

had got into the habit of spending

during the war regardless of cost.

This had got down to the individual

citizen, but if we were to get over

the habit, the first thing to do

was to personally investigate

the amount of the drain.

Dr. Tolmie said that the best way

to do this was to cut down the

expenditure of the public service.

He said that the best way to do this

was to have the public service

run on a smaller scale.

A sacrifice must be put in to the till on all unnecessary expenditures, by the

Government and by individuals.

The railway plan of the country

was only one way to solve these questions

and that was to bring in as many

people of the right class as it was

possible to bring in.

Cyprus

Apparently at Last to Find Perman-

ency of Ownership

The island of Cyprus, the third

largest body of land in the Medi-

terranean Sea, after having been pas-

sed around in various hands for

centuries, is apparently at last to find

what ought to be a permanency of

ownership.

A dispatch from London says

that the British parliament is seri-

ously considering a delegation

from the island to India and a delega-

tion from India to Cyprus for the

purpose of completing the nego-

tiations. Cyprus has belonged to Pe-

teria and Egypt; it was annexed by

Alexander the Great to Greece; it

was then subject to the rule of

Roman, Byzantine, Turkish and Brit-

ish empires.
